Backend - Nuxt.js | Node.js | Next.js

Developer Tools - Framer Motion | Git / Github | Docker | VS Code | | OpenAI | NPM | Webpack | Babel | Figma

Deployment / Testing - Chai | Mocha | TDD | Agile Methodology

PROJECTS

Portfolio Website | React App   **May 2023**

JavaScript | Next.js | React| Node.js | Typescript | Anime.JS | Vercel | SASS

- Used React to create reusable components & Typescript for preventing errors when compiling.
- Reveal animation of page sections is powered by Anime.js with SASS used for styling.

Spotify App | Fullstack React App   **June 2023**

- Integrated Stripe for secure payment processing, while Supabase and PostgreSQL handle data storage and retrieval. Improved UI / UX design by improving layout & adding "themes" - made global color switching optional.

WORK

Upwork | SquareSpace, Webflow, Shopify Web Developer - Contractor   **Nov 2022 — Present**

Javascript | React | HTML | CSS | Liquid

- Developed mockups / wireframes of websites for my portfolio to attract clients.

Door Dash | Uber Eats | Instacart | Caviar | Dumpling | Wag! | Rover

- Delivered hundreds of food orders in a timely fashion by bike, subway, taxi, ride share & motorcycle in Boston & NYC during the pandemic.
- Started my own third-party Trader Joe's delivery business that was very successful during the pandemic, fulfilling hundreds of orders and generating tens of thousands in revenue. I also acquired several repeat clients, as Trader Joe's no longer offers delivery in NYC.

Trader Joe's   **September 2014 — May 2018**

- Delivered outstanding customer satisfaction.
- Trained new employees on how to work the register to stocking sections of the store.
- Communication & interpersonal skills to work with co-workers as a team to decompose difficult tasks into more manageable ones.
- Was regarded as one of the top five performing employees in 2016.

EDUCATION

Bunker Hill Community College, Major — Computer Science   **2012 — 2014**
